Dear Readers,

Easter Greetings to our Readers. You will see elsewhere in this issue all the dates for all the Special Services and events for the season.

There will be an Egg Hunt for the children after the Service at 09.30 on Easter Sunday, which is always much enjoyed.

Thank you for all the kind messages and enquiries during my recent immobility.

Vicar's Letter

Dear friends

Have you ever felt like simply turning off the TV or radio because the news is so depressing? We all care about what's going on, but sometimes we may feel we are getting bad news overload – we feel powerless to change things and the temptation is simply to forget about it and think about something nice for a change.

So today I want to give you some good news. It is about another issue that concerns us all, which affects absolutely everybody the world over and about which we may well be tempted to feel that same sense of powerlessness - the environment. Nearly every day there is something on the news about it. And the latest is that we only have 11 years left to stop runaway global warming from completely devastating our planet. It sounds terribly gloomy, and perhaps you are already thinking 'I'm going to turn the page because this is just more bad news.' Stop! There's good news!

The good news is that this is something we genuinely can do something about – and there is still time (just!) All we need to do is work together, and we really can make change happen. Not only that but I'm proud to say that our lovely county of Suffolk is actually leading the way. How good is that?

Twelve months ago the C of E in Suffolk launched a new policy designed to make a real difference in every (church) parish in the county. We agreed that because we believe God gave us this beautiful earth, it's our job to look after it. As part of that we pledged to get an 'Eco Diocese' award within the year, by getting our churches working together to do things like switch to green energy, turn churchyards into wildflower meadows and provide nest boxes for endangered bird and bat species. We've worked on cutting down travel, putting solar panels on our vicarages and working out our carbon emissions so that we can reduce them. This week I can announce that we have achieved the first (bronze) level of award in record time, and we are pressing on towards silver and then gold. We can see a change already, and we are going for it! Great news!

Then this morning I read that Suffolk County Council has voted almost unanimously to declare a climate emergency, to work to become carbon neutral within that all-important 11 year span. Brilliant news!

That's two county-wide institutions showing that when you take something seriously enough, you really can make change happen.

We are not powerless. Will you join in with this good news story?

BARTON MILLS BAPTIST CHURCH

It's Springtime again – hopefully the strong winds of March will be replaced by the quieter month of April. The snowdrops have been replaced by the wonderful yellow trumpets of the daffodil. As our gardens **come alive** other kinds of life are emerging, **birds hatch from eggs, moths from cocoons and tiny trees sprout from seed.** I have a friend who owns a small holding in Norfolk and it is a wonderful experience to visit him this time of the year and be introduced to his **new lambs and piglets.** How can we fail to be awe struck by God's majesty!

We are also **looking forward** this month to that **special time in the Christian Calendar known as Easter.** Just as we consider **Spring as the time of resurrection** we too **remember the death and resurrection of Jesus Christ.** It is one of the most well established events in history. It is also a **miracle far more wonderful** than the return of life in the Spring, **it is the cornerstone of the Christian faith.** Without it we have no hope for this life nor the life to come. **He has promised resurrection to all those who put their trust in Him.** **Over 2,000 years later His resurrection still gives meaning to life here and now.** Not only is the risen Saviour the **Creator of physical life (Col 1 v 16),** He is also the **originator of new spiritual life.** Because of **His sacrificial death and His triumph over the grave,** Jesus said in **John 11 v 25, "I am the Resurrection and the Life".** As we see **new life bursting out all around us,** let us rejoice in **Christ's Resurrection.** At this Easter time, **be thankful for a Saviour who died for us and who lives for us.**

This month our speaker was Marika Sigley who gave a very informative talk about the importance of bees. Full of facts and everything you didn't know about bees: They always walk upwards, they identify a productive flower and stay with that type of flower for their lifespan which is approximately 6 weeks after hatching. Marika brought a hive with her and explained the components and purpose of each section. Her talk resulted in lots of questions and was thoroughly enjoyable.

Afterwards, we all had a go at making a bee, enjoyed refreshments and a raffle.

Our next meeting will be on Tuesday 9th April at 7.30 in the village hall when our speaker's subject will be 'Fingerprints'

Do come and join us, all are welcome.

Advice about flowers/plants on graves.

It is worth knowing that certain plants likely to be placed on a grave are favoured by muntjac deer. They love tulips, eating the flowers and leaving headless stalks. Roses are also highly favoured and primroses are likely to be eaten. Daffodils are not taken.

Also, in the recent winds, many artificial flowers on wire stems placed in the perforated holders had blown around - they need to be weighed down to prevent movement.
